

**Have you been exposed to environmental toxins during your time in military service?**

## **PACT Act Information Clinic**

Based on recent legislation passed, Veterans of many different eras and their survivors are now potentially eligible for compensation benefits. If you served in Vietnam, Thailand, Laos, Cambodia, Guam, or American Samoa during the Vietnam era or served in the Gulf from 1990 to the present, the new legislation has expanded eligibility for compensation benefits for Veterans and their survivors as a result of certain exposures.

Veterans, Survivors, and Beneficiaries are encouraged to stop by and speak with a VA representative to file a claim, check on the status of an existing claim, or to get questions answered.
